PROTECTION GROUP

Designed for heavy duty operations that requires multi-threat protection, the PGD Ultra is designed to stop the most advanced ballistic and stab/spike threats!

The laminated aramid construction, made with Twaron aramid offers a great solution which can be used for both our concealable and overt carrier systems.

PGD Ultra is a multi-threat system designed to stop ballistic threats, as well as spikes and knives.

Made in laminated Twaron aramid, you get a solution that's designed for heavy duty tasks which has been tested in accordance with NIJ IIIA 0101.06 & NIJ Ivl 1 0115.00 (S1,P1 and Spike).

The soft armor is sealed with our Ultrasonic heat sealing technology, making it 100% water resistant.
